1-Stuck in That Fire

Come here boy, now you have grown
It want to tell you the truth around
Wonderful days when i was young
The lands were green and we had fun

***No more fun, cause we are stuck in a fire
Help me find, how to out that fire
Yes I'am an arsonist firefighter
I'm unkind, selfishness is my pyre***

This fairy tale everyone knew,
Has turned to a nightware, for me and you
My generation, is alone to blame
Your blue sky is a living hell

***No more heaven, now you are stuck in a fire
Help me find, how to out that fire
Yes I'am an arsonist firefighter***

I'm unkind, selfishness is my pyre

The day my house, was burning down
My arrogance had swept in flames
My world in ruins buried my pride
Please forgive me for what i have done !

**No more lies, now we are stuck in a fire
Help me find, how to out that fire
Yes I'am an arsonist firefighter
Hear my son, ashes are your empire !**

2-Snakes And Bones

Suddenly you came from the shadow
Well, really, i didn't see you
Suddenly you seemed so beautiful
I should had been careful about you

(RF)

***The day I met you whore,
I fell in a deep hole,
A deep hole full of snake and bones,
Yes, full of snakes and bones,***

***I fell in a deep hole,
A deep hole full of snakes and bones***

You're a dark doom woman, you're like a cold thunder
You are so bitter, frozen like white marble
You act like a stranger, a devil I can't kiss
A black adder with sharp fangs,
Death is on your lips !

RF

When you left me, it knocked me down
It was like an animal attack
Hand of fate, is on me babe,
No feelings at last, I've lost my past !

RF

3-Streets of Nowhere

My mind is out of all this pain.
The fear is here but I pretend
You never know but nevermind,
I'll walk on the streets of nowhere.

Can't you see the grass, can't you see the trees
They are all burning, they all decrease
I am sure one day, you will do like me,
you will walk on the way of your meaning.

(RF)

Heyyy... ! You couldn't do anything.

Don't worry it's just the thrill

Open your eyes and stay alive

That was just an illusion

Of our world who came upon

Open your eyes and stay alive.

Desolation has gone away
And whatever the situation
I will do what I've always done,
I'll walk on the streets of nowhere.

RF

We are the last of us... ! (x2)

You never know but nevermind

I'll walk on streets of nowhere. (x4)

4- Pieces of Me

Tonight you get home and things are going well

Why should it be otherwise ?

You open the door and i can see on your face

The devil's now on the scene

(Pont)

There are cracks in my brain !

My head in pieces !

(RF)

Crush my mind !

Break the pieces of me, until i die

Break these pieces and maybe i'll cry

Blow up my mind.... now

Tonight i get home and things are going bad

I guess, i should have known

In front of this door, i should have hesitated

Who is behind the door ?

Pont + RF

Tonight I've broken the door with my forehead
I've blood on my hand !
Broken glass is sharp, don't injure yourself
don't injure yourself !

RF seul

5-Hey ! I'm Ready For Rock'n'Roll !

I'm so glad with my brand new guitar Gibson
It's an SG like beatele George Harrison
So, I'm gonna write a little new rock melody
It will be maybe in D, it will be maybe in G

Hey ! I'm ready for rock'n'roll !
Yeah, I want to play like a lord
Hey ! I'm ready for rock'n'roll !
Yes I'm able to give it all !!!

Before concert, I went yesterday to the hairdresser
So now, I put on my honey black leather
I lace up my snakes skin boots
Have a little beer and I remember my roots

RF

6-To Wait

They speak without smile
Confusion in their mind
They walk in the mud
Wash themselves with a bush
Do you see this world ?
It's a big Di-sas-ter

It's tough for them
To fight against desire
Want to buy your soul
Money, powerful
How can they find truth ?
So, what can I do ?

RF

Slumberers, don't want to play
All I can do, is to wait
Slumberers, never find their way
I think, I'm gonna be upset

Yes, they set me on fire

So, could I keep my pride ?
They are like a cold thunder
They are so bitter, so twister
To be oneself in the blame

It's like an hurricane

RF

7-Automatic People

They go home, on the evening, on the evening
With a well done, work feeling, work feeling
It's so easy not to think
It's so easy to cut the links

Computer says "no, no, no, no
My dear, there's no fault"
Strong protocols, no remorse
My dear, do you endorse ?

RF

Automatic people, They don't know fun
Automatic people, They don't know love

They are like stupid machines,
They are like strong stupid machines
Their whole world is so cold
It reminds me a famous wall

This new world is a spell
So, I'm gonna be afraid
It's certain that we all fell
You can say : what a hell !

RF

8-Blood On The Track

Number one was in twenty little bags
Number two had been devored by rats
Number three was without decency
A dreadful feeling has got me

(RF)

***There's blood on the track
It's a serial killer, i feel bad
There's blood on the track
It's a serial butcher, Who'll survive ?***

Number four was in a big freezer

Number five was in a gas cooker

Number six was a smash hit

Why inspectors can't find him ?

***There's blood on the track It's a serial killer
There's blood on the track It's a serial butcher***

(X2)

***There's blood on the track
It's a serial killer, i feel bad***

Yes i feel his heavy breathe

I already listen his long steps

I'm paralyzed, i can't cry

Death move forward a scary ***night***

RF

9-We Shall Never Surrender

Every morning brought a noble chance

He said : we don't want a simple defence

Every chance brought a noble night

He said : it's a big task to save life

(RF)

We shall Fight / Fight forever
We shall never / never surrender
We shall Fight / Fight forever
We shall never / never never surrender

(1 seul tour sans chant)

You ask : "what is your aim ?"

I can answer in one word

Victory is that word

We won't get fooled again

RF

(Fight, fight, fight)

We shall fight in the dark night
We shall fight under the street lights
We shall fight on the roads
We shall fight without any fault

(RFx2)
